

CHAPTER SIX TECHNICAL BARRIERS TO TRADE

ARTICLE 6.1: OBJECTIVES

The objectives of this Chapter are:

- (a) to increase and facilitate trade between the Parties, through the improvement of the implementation of the TBT Agreement;
- (b) to ensure that standards, technical regulations, and conformity assessment procedures do not create unnecessary obstacles to trade; and
- (c) to enhance joint cooperation between the Parties.

ARTICLE 6.2: GENERAL PROVISION

The Parties affirm their existing rights and obligations with respect to each other under the TBT Agreement, and to this end the TBT Agreement is incorporated into and made part of this Agreement, *mutatis mutandis*.

ARTICLE 6.3: SCOPE OF APPLICATION

1. This Chapter shall apply to the preparation, adoption, and application of all standards, technical regulations, and conformity assessment procedures of the Parties that may affect the trade in goods between the Parties.
2. Notwithstanding paragraph 1, this Chapter shall not apply to sanitary and phytosanitary measures covered by Chapter 5 (Sanitary and Phytosanitary Measures) or to technical specifications prepared by governmental bodies for production or consumption requirements of such bodies covered by Chapter 14 (Government Procurement).

2. In determining whether an international standard, guide, or recommendation within the meaning of Articles 2, 5 and Annex 3 of the TBT Agreement exists, each Party shall apply the *Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the*

Agreement adopted since January 1, 1995¹ by the WTO Committee on Technical Barriers to Trade (hereinafter referred to as the “TBT Committee”).

ARTICLE 6.5: EQUIVALENCE OF TECHNICAL REGULATIONS

2. Where a Party does not accept a technical regulation of the other Party as equivalent to its own, it shall, upon request of the other Party, explain in writing the reasons for its decision.

ARTICLE 6.6: CONFORMITY ASSESSMENT PROCEDURES

1. The Parties recognize that a broad range of mechanisms exists to facilitate the acceptance in a Party’s territory of the results of conformity assessment procedures conducted in the other Party’s territory. Accordingly, the Parties may agree on the following:

- (a) the acceptance of a supplier’s declaration of conformity;
- (b) the acceptance of the results of conformity assessment procedures by bodies located in the other Party’s territory, including those regarding specific technical regulations;
- (c) that a conformity assessment body located in a Party’s territory may enter into voluntary recognition agreements for the acceptance of the results of its conformity assessment procedures, with a conformity assessment body located in the other Party’s territory; and
- (d) the adoption of accreditation procedures to qualify the conformity assessment bodies located in the other Party’s territory.

The Parties shall exchange information on the range of the mechanisms used in their territories.

2. The Parties shall accept, whenever possible, the results of conformity assessment procedures conducted in the territory of the other Party, even when those procedures differ from its own, provided that those procedures offer a satisfactory assurance of applicable technical regulations or standards equivalent to its own procedures. Where a Party does not accept the results of conformity assessment procedures conducted in the territory of the other Party, it shall, upon request of the other Party, explain in writing the reasons for its decision.

3. Prior to accepting the results of a conformity assessment procedure pursuant to paragraph 2, and in order to enhance confidence in the permanent reliability of each one of

the conformity assessment results, the Parties may consult on matters such as the technical competence of the conformity assessment bodies involved. Where a Party considers that a conformity assessment body of the other Party does not fulfill its requirements, it shall explain to the other Party in writing the reasons for its decision.

4. A Party shall give positive consideration to a request by the other Party to negotiate agreements for the mutual recognition of the results of their respective conformity assessment procedures. Where a Party declines such request, it shall, upon request of the other Party, explain in writing the reasons for its decision. The Parties shall work together to implement the mutual recognition agreements to which both Parties are party.

Where possible, the Parties shall provide an on-line link to, or a copy of, the complete text or a summary of the notified document in English.

4. Each Party shall allow at least 60 days following the notification of its proposed technical regulations and conformity assessment procedures for the other Party to provide written comments, except where urgent problems of safety, health, environmental protection, or national security arise or threaten to arise. A Party shall give positive consideration to a reasonable request of the other Party for extending the period for comments.

The cooperation described on this article may be preferably focused on fields such as: (i) auto parts, (ii) textiles, clothing, and design, (iii) cosmetics and hygienic products, and (iv) pharmaceutical products and medical devices.
